Professor / Climate Dynamics / Hokkaido University

Section of Earth System Science, Faculty of Environmental Earth Science, Hokkaido University is seeking applicants for a professor who can conduct research mainly in the field of Climate Dynamics and Meteorology. He/she is expected to take part in education of graduate students of the Course in Atmosphere-Ocean and Climate Dynamics, Division of Earth System Science, along with a light load of undergraduate education.

The section has been taking leading roles in research on global change and climate variability. Our 17 faculty members cover broad research areas from atmospheric science to oceanography as well as physics and chemistry. The specialties are also wide: field experiments, theoretical modeling, numerical modeling, satellite remote sensing, terrestrial science, and analytical chemistry.

To apply for this position, please send the following materials by registered mail to Prof. Fumio Hasebe, Search Committee Chair, Faculty of Environmental Earth Science, Hokkaido University, Sapporo, 060-0810, JAPAN.

- (1) Curriculum vitae
- (2) List of publications categorized into original papers, reviews and others
- (3) Reprints of several most significant papers
- (4) Description on research interests (about 800 words)
- (5) Description on teaching interests (about 800 words)
- (6) Names and addresses of two professional references

The application must be received no later than November 30, 2012.

More information could be obtained from our web site:

<http://www.ees.hokudai.ac.jp/>
